

We are more

The favourite anchorage at the Baltic Sea

We are home

We create memories and moments of happiness in a place where you can feel comfortable and develop.

We are appreciative

Empathy, mutual support, trust and transparent communication are at the centre of our actions. We see mistakes as opportunities.

We are future-oriented

We see potentials, train according to excellent standards and provide individual support. We recognise trends and the needs of our guests and invest in the future of our favourite anchorage.

We are diverse

We treat all people with respect and tolerance. No matter what religion, sexuality, skin colour, appearance, age and so on.

We are eco-friendly and sustainable

Waste avoidance, energy-efficient renovations, regional service providers and sustainable, ecological management are the basis of our work, so that the generations after us will still be able to enjoy life.
